

# CMSC 754 Computational Geometry

David M Mount, Fall 2016

Lecture 1: Introduction to Computational Geometry .....	2
Lecture 2: Warm-Up Problem: Computing Slope Statistics .....	6
Lecture 3: Convex Hulls in the Plane .....	11
Lecture 4: Convex Hulls: Lower Bounds and Output Sensitivity .....	17
Lecture 5: Line Segment Intersection .....	25
Lecture 6: Polygon Triangulation .....	32
Lecture 7: Halfplane Intersection and Point-Line Duality .....	39
Lecture 8: Linear Programming .....	45
Lecture 9: Trapezoidal Maps .....	53
Lecture 10: Trapezoidal Maps and Planar Point Location .....	57
Lecture 11: Voronoi Diagrams and Fortune's Algorithm .....	63
Lecture 12: Delaunay Triangulations: General Properties .....	70
Lecture 13: Delaunay Triangulations: Incremental Construction .....	74
Lecture 14: Line Arrangements: Basic Definitions and the Zone Theorem .....	79
Lecture 15: Applications of Arrangements .....	83
Lecture 16: Hulls, Envelopes, Delaunay Triangulations, and Voronoi Diagrams .....	90
Lecture 17: Well Separated Pair Decompositions .....	95
Lecture 18: Applications of WSPDs .....	102
Lecture 19: Geometric Sampling, VC-Dimension, and Applications .....	107
Lecture 20: Motion Planning .....	116
Lecture 21: Geometric Basics .....	126
Lecture 22: Planar Graphs, Polygons and Art Galleries .....	129
Lecture 23: Doubly Connected Edge Lists and Subdivision Inter- Section .....	134
Lecture 24: Multidimensional Polytopes and Convex Hulls .....	137
Lecture 25: Kirkpatrick's Planar Point Location .....	144
Lecture 26: Minimum Enclosing Ball .....	148
Lecture 27: Topological Plane Sweep .....	152
Lecture 28: Ham-Sandwich Cuts .....	155
Lecture 29: Shortest Paths and Visibility Graphs .....	157
Lecture 30: Divide-and-Conquer Algorithm for Voronoi Diagrams .....	160
Lecture 31: Orthogonal Range Searching and kd-Trees .....	163
Lecture 32: Orthogonal Range Trees .....	169
Lecture 33: Interval Trees .....	174
Lecture 34: Hereditary Segment Trees and Red-Blue Intersection .....	178
Lecture 35: Coresets for Directional Width .....	183
