Clause Reduction

```
forall  $l \in C$  do  
  | if  $C \leq_{\theta} C \setminus \{l\}$  then  
  |   |  $C \leftarrow C \setminus \{l\}$   
  | end  
end
```

- ▶ $p(X) \vee m(X) \vee p(Y) \vee m(Y)$
- ▶ $p(X, Y) \vee p(Y, X)$
- ▶ $p(X, Y) \vee m(Y, Z) \vee p(W, Q) \vee m(Q, Z)$

LGG vs MGU [Nienhuys-Cheng and Wolf, 1997]

- ▶ $p(a, X, f(X))$
- ▶ $p(Y, f(b), f(f(b)))$
