

**Scientific Writing  
XPE045SCWR  
Summer 2019**

**Assignment 5 Final Paper and Slides**

Submit the final version of your paper following the steps outlined in the lecture. Put special emphasis on the Introduction and Reference Sections.

**Part 1: Analysis of cited paper**

Identify and print out a paper you are referencing from the venue you hope to publish in. Discuss the following:

- A. Identify the venue this paper appeared in. Are there citations in this work from the same conference or journal? Circle these in the text and in the bibliography.
- B. What is particularly important about this paper? What “category” of paper does this fall in? Highlight the particular portion of the text (i.e., main idea) that you will be bringing into your introduction.
- C. Provide the specific text you are writing in your paper about this work.
- D. Provide the proper citation for this work as it will appear in your reference.

**Part 2: Introduction**

Use the guidelines discussed in class to rewrite the Introduction section for your paper. Present this write up in the proper format for the venue you are targeting (i.e., its format should be identical to the paper you are submitting in Part 1). Include your title, authors, abstract, and references (see Part 3 for instructions on the last). Highlight the sentence(s) you wrote for Part 1C.

**Part 3: References**

Use the guidelines discussed in class to develop the Reference section for your paper. Your reference should follow the guidelines for the venue (i.e., it should look like the reference of the paper you are submitting for Part 1). Highlight the citation you wrote for Part 1D.

-----  
A black and white hardcopy of your final paper is due at 9:15am on Tuesday, May 14th. Please email a pdf version of your paper to [cwon@temple.edu](mailto:cwon@temple.edu). There is no class on Tuesday, May 14th.

Also email the final slides in pdf format by 9:15am, May 21st, 2019 to [cwon@temple.edu](mailto:cwon@temple.edu)
