2020Z / B0B33OPT / Conference rooms

Every teacher can create a meeting room for her/his course, where attendees can be students or only teachers. Teachers are always moderators. The meetings can be recorded and the recordings are accessible from BRUTE several minutes after the end of the meeting. Conference meetings are using BigBlueButton Open Source software. Tutorial video for moderators (teachers) and viewers (students) are available. More videos are available on BigBlueButton.
