

# Seminar #3

Petr Křemen

## 1 Goal

Get experience with SPRING, by discovering 2 SPRING based projects. You will get experience with JPA, and namely with ORM.

## 2 Getting Ready

- Ensure you have available the software stack installed during the first lab with Netbeans 8.2
- Clone the GIT repo <https://gitlab.fel.cvut.cz/ear/seminar-spring-example>
- Clone the GIT repo <https://gitlab.fel.cvut.cz/ear/reporting-tool>
- Open both projects in Netbeans 8.2 and resolve any warnings/errors reported by Netbeans

## 3 Becoming Familiar

Project *seminar-spring-example* is small example project using SPRING, while project *reporting-tool* is full-featured project with all technologies that you will learn in this course.
