Seminar #4

Miroslav Blaško

1 Goal

Get experience with SPRING by discovering two SPRING-based projects.

2 Getting Ready

- Ensure you have available the software stack installed during the first lab with Netbeans 8.2

- Clone the GIT repo `https://gitlab.fel.cvut.cz/ear/seminar-spring-example`

- Clone the GIT repo `https://gitlab.fel.cvut.cz/ear/reporting-tool`

- Open both projects in Netbeans 8.2 and resolve any warnings/errors reported by Netbeans

3 Becoming Familiar

Project *seminar-spring-example* is small example project using SPRING, while project *reporting-tool* is full-featured project with all technologies that you will learn in this course.
