Programming Essentials, EECS, CTU in Prague

3rd mid-term

- programming test, similar to the 1st and 2nd
- implementation of a simple class (think about `vectorlib.py` in class form)
- Friday 15, 15:00, KN:E-230 (standard computer lab)

Exams

- programming, 3 hours
- 1 regular, 1 correcting attempt
- Wed: Jan 20 and Feb 10
- open book/sources, but your own coding work
- up to 30 points

before exam

- all the homeworks uploaded
- a least 30 points from the homeworks+mid terms
