# WHAT IS EXILIS?

**NON-INVASIVE TREATMENT SYSTEM FOR THE REDUCTION  
OF TARGETED FAT DEPOSITS AND SKIN TIGHTENING**

## WHAT EXILIS DOES

- ◇ Provides effective body contouring for all your aesthetic practice clients
- ◇ Utilizes revolutionary new platform for volume reduction and recontouring of problem body areas
- ◇ Results in marked improvement in cellulite, skin tightness, tissue volume, tone, and elasticity
- ◇ Reduces wrinkles and rejuvenates face with supplemental anti-aging effects
- ◇ Ensures maximum safety and user control with built-in handpiece thermometer

# BODY CONTOURING WITH DUAL ENERGY TECHNOLOGY

Exilis is a significant technological advance in aesthetic applications.

Exilis patented technology uses **controlled heating** to the tissue through radio frequency in conjunction with **mechanical action** of ultrasound and **skin cooling**.

**BEFORE**

The combination of mechanical effects of ultrasound and radio frequency energy allows access and treatment of previously resistant tissue. EXILIS precisely targets deeper fat layers, while contact cooling of the surface regulates the temperature of the skin and protects fine dermal structures.

- ◇ Revolutionary medical effect of combined mechanical action and uniform molecule excitation
- ◇ Precisely **targeted, effective** and **rapid contouring solution**
- ◇ **Built-in thermometer** enables homogenous energy distribution without constant rechecking of tissue temperature - **no risk of overtreatment**
- ◇ Embedded Energy Flow Control system (EFC)

**AFTER**

RF energy causes targeted deep thermal tissue heating. Metabolic activity is initiated and localized fat tissue lipolysis is accelerated. Fat cell volume decreases and the fat layer is reduced.

As part of the process, the mechanical energy of ultrasound helps to open up fibrotic matrix fat structures, causing the separation of the fat-cell defensive formation into individual units. The exposed fat cells are then more isolated and accessible and more responsive to treatment.

# CRT FACIAL REJUVENATION

## COLLAGEN REFILL TECHNOLOGY

- ◇ Collagen rejuvenation through a **patented** system of **dual energy delivery**
- ◇ Dramatic improvement of **skin density and dermal thickening** based on neocollagenesis
- ◇ Homogenous and consistent energy distribution is non chromofore-dependent and works with all skin types

## CONTROLLED ENERGY DELIVERY

- ◇ **Synchronized pulse energy** delivery enables precisely dosed superficial heating
- ◇ Dual energy pulse for **ultimate effectiveness**
- ◇ Only a **fraction of energy** is needed when compared to existing technologies
- ◇ **No cooling** necessary
- ◇ **Fast** and very **comfortable** treatment

#### HOW CRT WORKS:

- ◇ The collagen fibers triple-helix structure is affected by heat and this initiates the **unravelling process**
- ◇ The ultrasound waves **mechanically disrupt** collagen fibers
- ◇ The combination of energies quickly and efficiently **dissociates the collagen structure**
- ◇ The natural healing process evokes fibroblasts to actively produce **new collagen fibers**
- ◇ The skin structure is refilled with **new collagen**

# ENERGY FLOW CONTROL SYSTEM (EFC)

The installed EFC software controls the energy flow and automatically eliminates energy peaks. This process is known as the Square (“Flat Top”) Spectrum Energy Profiling and is a unique feature of Exilis high-frequency therapy. Exilis ensures uniform energy distribution - allowing safer, faster and more efficient therapy.

# EXCELLENT RESULTS

before

after 4 Tx

## EFFECTS:

- ◇ Fat volume reduction
- ◇ Cellulite reduction
- ◇ Skin tightening
- ◇ Skin texture improvement

**EFFECTS:**

- ◇ Wrinkle reduction
- ◇ Skin tightening and anti-aging effects
- ◇ Smoother and younger looking skin
- ◇ Enhanced collagen production

# CLINICALLY TESTED

PREVAS laser system – 3D volume reduction screening

- ◇ Supported by extensive research
- ◇ No harm to body organs proven by biochemical testing
- ◇ Clinically tested both in vivo and in vitro

Histology – areolar connective tissue

Post procedure thermography scan

## UNRIVALLED ADVANTAGES

- ◇ **The fastest, most powerful treatment system on the market**
- ◇ State-of-the-art safety control EFC system with built-in thermometer
- ◇ Easy to use touch screen interface with preset parameters
- ◇ Programmable user protocols
- ◇ Expandable software system allows growth as your practice needs change
- ◇ No disposables

## CLIENT SATISFACTION GUARANTEED

- ◇ No pain / no anesthesia
- ◇ No downtime
- ◇ Fast, efficient treatment
- ◇ Progressive, lasting and measurable results
- ◇ Best results after 4 sessions
- ◇ Multiple effects evenly spread
- ◇ Body and face solutions

## OWNER'S BENEFITS

- ◇ Significant minimally-invasive body modification has never been so affordable for your clients
- ◇ Innovative treatment modality
- ◇ Short treatment time means time for more patients
- ◇ Treatment is delegated to trained personnel
- ◇ Financial advisory assistance
- ◇ Rapid return on investment
